re Genetically Engineered Foods

I am writing to support the petition by the Center for food Safety regarding the labeling of GE Foods.

No more GE Foods should be released until the Food and Drug Administration is satisfied as the result of long-term testing that they are safe for human consumption.

All currently existing food with GE ingredients should be clearly labeled so that consumers may make a choice before ingesting them.

Thank you for your consideration.

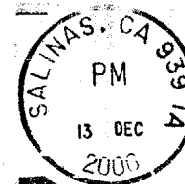

Jane Henney, Commissioner
Food and Drug Administration
